Friday - 16 May 1958

STAT

At the request of [redacted] of OSI, attended an OSI meeting with representatives of the Air Force on the subject of unidentified flying objects. In an effort to dispel the aura of mystery still surrounding the flying saucer report of 1953, the Air Force is preparing a press release phrased in the strongest possible language. The release will be cleared with CIA in draft form. (See Memorandum for the Record for full details).
